ABOUT OUR SIGNS AND LABELS

Cirlock Self Adhesive Labels are made from High Quality Gloss Vinyl printed with Eco Friendly ink with an outdoor average lifespan of 2-3 years.

Pipe Identification Markers are printed on a Matt Vinyl with an Industrial Strength adhesive. Pipe ID Markers can also be coated with a clear laminate for excellent protection and extra long life.

Danger Tags, Warning Tags and other custom made tags are as standard made from High Quality Poly material, to withstand water and grease, and for long term durability. For re-usable tags extra thick material or heavy duty lamination can be used.
All tags have as standard a 8mm metal eyelet. Please request other options if needed (eg string).

Signs can be supplied with either Polypropylene backing (1.4mm), Coreflute (5mm) or a Metal backing (0.55mm) as standard.

Cirlock signs, labels and markers are, where possible, made to Australian Standards.

Switchboard Labels

NEW

We can supply you with all your switchboard and other labelling requirements. Traffolyte signs and labels were very popular in the past. However, phenolic dust is now recognized as a health hazard (castergenic properties) and so other abs safe plastics have been manufactured to deliver same and better results using new and improved modern safe formulas. We use only high quality ABS plastics. See page 67 for ordering form.

NEW

We specialise in Custom Made signs for all applications. We have a simple and easy process from ordering to artwork approval to print.

We pride ourselves on our very fast delivery times as well as the high quality of our work and products.

SWITCHBOARD LABELS

Need Switchboard Labels? Contact us now, fast delivery!

We can supply you with all your switchboard and other labelling requirements. Traffolyte signs and labels were very popular in the past. However, phenolic dust is now recognized as a health hazard (castergenic properties) and so other ABS safe plastics have been manufactured to deliver same and better results using new and improved modern safe formulas. We use only high quality ABS plastics with high quality 3M Adheisve.

PIPE ID MARKERS

Pipe Markers help to quickly and easily identify pipes contents. This is especially helpful in an emergency situation. It also saves time during maintenance. Australian Standard AS 1345-1995 - "Identification of the contents of pipes, conduits and ducts" - specifies guidelines for pipe marking. CIRTAG® standard Pipe Markers complies to AS 1345-1995 Standards.

Pipe Marker Layout:

A marker consists of printed text on a coloured background with a contrasting border and a chevron to show flow direction. The colours are determined by the pipes contents. Text and marker sizes are also specified.
Markers must be placed adjacent to all junctions, valves, wall penetrations etc. Markers shall be spaced no more than 8m apart, except for long uninterrupted straight runs of external services where spacing shall not exceed 50m.

Supplementary Colour Markers:

Additional colour markers can be used as 'wrap around' bands to help specify pipe content and danger levels.

Self Adhesive Pipe Markers

Pipe Markers are made from a Premium Grade self adhesive indoor/outdoor Vinyl. Simply peel marker off the release coated backing paper and press the marker in place. Weather resistant ink provide years of performance. It is recommended to Band each end with Supplementary Markers, Arrow Tape or Warning Tape.

We can supply you with all your switchboard and other labelling requirements. Traffolyte signs and labels were very popular in the past. However, phenolic dust is now recognized as a health hazard (castergenic properties) and so other ABS safe plastics have been manufactured to deliver same and better results using new and improved modern safe formulas. We use only high quality ABS plastics with high quality 3M Adheisve.

An Excel Spreadsheet is available on our website for larger quotes/ orders - pleas see the Home page under the heading SUPPORT.
